P R E F A C E .

THE usual time for a new edition of the NEW BEDFORD DIRECTORY has again come, and we present No. 17 of the regular series to our patrons, with the confidence of its welcome reception by them, as well as by the public generally.

As cities grow in importance and population, the directory increases in value, as a book of reference, until large cities like Boston and New York could not possibly get along without their annual publication. A good directory is a great benefit to a place, not only to the citizens, but to strangers and visitors, who are constantly referring to its pages for information of some kind. We also often receive orders from distant parts of the country for our directories, which show that their circulation is not necessarily limited to the cities they represent.

The canvass this year shows a good increase of names over that of last year, as will be seen by the figures given below :

Names in 1879,	9,930
Names in 1877,	9,360
Increase over last edition,	570

We wish especially to call the attention of persons using the directory, to the importance of knowing the precise spelling of a name, before looking for it, as the same names, by being spelled in various ways, will appear on different pages, and at quite a distance from each other.

Our agents have received the usual courteous attention from all with whom they have come in contact, while obtaining the information for this number, and with many thanks for the same,

We remain very respectfully,

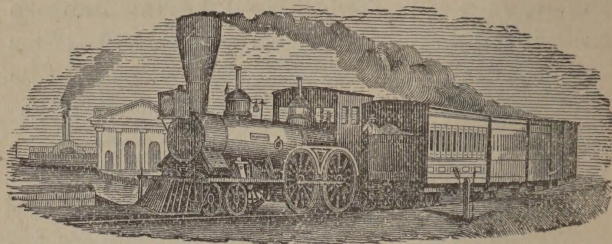

GREENOUGH & CO.,

November, 1879.

LOCALITIES OF INTEREST

IN AND ABOUT THE CITY.

ACUSHNET. That is a village usually known as the Head of the River, about three and a half miles in a northerly direction from the City hall. The westerly part is in New Bedford, and the easterly part in Fairhaven, divided by the Acushnet river. The parts are united by a stone bridge. Pine Grove cemetery is near the village.

ACUSHNET HEIGHTS. That portion of our territory known by this name is in the northwest part of the city, commencing at the head of Willis street. Here are some of the most beautiful private residences of our city; and the view which includes the river, the harbor, the bay, and adjoining shores, villages, and islands, is one of the finest in the country.

BELLEVILLE. This name was, many years ago, given to a spot on the bank of the Acushnet river, about one mile south of Acushnet village.

CANNONVILLE. A portion of the westerly part of the city, in the neighborhood of the meeting-house on the Smith's mills road, is known by this name, thus called in honor of one of our citizens, whose labors in behalf of the people there will long be remembered.

CITY COMMON. This beautiful spot is in the north part of the city, and is bounded by County, Purchase, Pope,

and Pearl streets. A very handsome monument, erected by the city, at a cost of about \$13,000, as a memorial to the soldiers and sailors who lost their lives during the war of the Rebellion, is located here.

CLARK'S POINT. This point forms the southerly part of the city. It has the waters of the Acushnet river on the east, and of Clark's Cove on the west. Its length is about two miles. At its southern extremity is a large tract of land belonging to the United States, on the river side; at the extremity of the point is a lighthouse, west of which the government has erected an extensive fortification. Around this point, a distance of about four and a half miles, is a road not surpassed by any public drive in this country. It commences at French avenue, junction Cove street (at the Orphans Home), and follows the shore from thence along the western, southern and eastern boundaries of the point, until it terminates in the street where it has its beginning. It is eighty feet wide, smooth and level, and in its course commands a series of views of surpassing loveliness and beauty. The cove, the bay, the river, the shores, the islands and ledges, the lighthouses, steamers and sailing craft of every description, the city on the one side, its sister town of Fairhaven on the other, and the noble bridge between, constitute a series of views, which render a ride or a walk over this road most delightful and attractive. The City farm and Almshouse is located on the eastern side of the Point.

FISH ISLAND. The bridge from the city to Fairhaven passes over this island. Several wharves, an extensive coal-yard, an oil factory, a marine railway, and a boat manufactory are connected with it.

FOUR CORNERS. The space formed by the intersection of Water and Union streets. This has been a somewhat noted spot in our local history. Near this was erected the first village house, and it may still be regarded as a business center. The banks, insurance offices, lawyers' offices, etc., are nearly all in this vicinity.

ROCKDALE is about one mile north of Cannonville, on Rockdale avenue.

POPE'S ISLAND. This island derives its name from a family long known and respected among us. The bridge between the city and Fairhaven passes over it. It lies nearly in the center of the river.

PALMER'S ISLAND, upon which the United States Government has a lighthouse, is at the mouth of the inner harbor. The main channel lies east of it. It affords a good protection from the high southerly winds.

PUBLIC CEMETERIES.

There are three public cemeteries in the city.

THE RURAL CEMETERY is in the south part of the city, on the west side of Dartmouth street, about one mile from the City Hall. Also an entrance on Rural street from Allen street. Thomas Davis sexton.

THE OAK GROVE CEMETERY is in the west part of the city, on the north side of Smith and Parker streets, about one mile northwest of the City Hall.

THE PINE GROVE CEMETERY is situated on the road leading to Tarkiln Hill near Acushnet village

QUARANTINE.

Port Physician, Charles L. Swasey. Office 93½ Middle street.

The quarantine ground is bounded as follows: Butlers flats on the south, the east shore of Clark's point on the west, the Eleven Foot Bank on the north, and the Egg Islands, on the east.

E. B. WHITING & CO.,

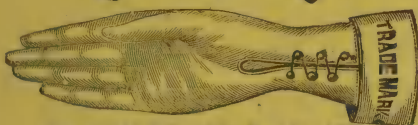

SOLE AGENTS

FOR THIS MAKE OF

GLOVE,

IN THIS CITY.

"Foster" Kid Gloves.

PATENTED JUNE 13, 1876.

These Goods have been sold during the past three years. All who have worn them pronounce the Mode of Fastening **ABSOLUTELY PERFECT.**

The many annoyances connected with the old system of Button Gloves are entirely overcome, and the following advantages secured:

- 1st—The perfect ease and rapidity with which it is laced.
- 2nd—Its adjustability to fit the different sized wrists.
- 3rd—The advantage gained by *gradually* straining the Kid, instead of the old system which ruins so many pairs the first time buttoned.
- 4th—Strength of Hooks and mode of clinching them. The fastening will outlast any glove which is a very rare occurrence with buttons.

Independent of Improvement in fastening the quality is guaranteed equal, if not superior, to any other glove in the market.

FOR SALE BY

THE MOST PERFECT FITTING KID GLOVE.

No more trouble with Gloves un-buttoning.
